

**PURCHASING ROSEN BRANDED PRODUCTS FROM UNAUTHORIZED DEALERS, INCLUDING ALL INTERNET RETAILERS AND MAIL ORDER COMPANIES, VOIDS THE WARRANTY**

Rosen puts tremendous efforts into training our Authorized Dealers to provide you, the end-user, with valuable advice and installation expertise. With automotive rear seat entertainment and hands-free phone systems, the importance of quality system design and professional installation is key to long-term product success and consumer satisfaction. For those reasons, we do not believe that unauthorized dealers and Internet resellers can provide the level of service and support we feel our customers deserve and we do not allow any Rosen Authorized Dealer to sell the Rosen brand via Internet or Mail Order. We do authorize Rosen branded products to be sold through new car dealers nationwide.

Rosen products purchased from an unauthorized source carry no warranty from Rosen, regardless of any claims made by the seller. We have no way of determining whether these products are used, refurbished, counterfeit, stolen or otherwise compromised.

As a customer you should value the opportunity to audition products and receive free face-to-face service from people who will be there for you after the sale. For that reason, we encourage you to support your local, Authorized Rosen Dealer. They have made a commitment to personal service and selection that no Internet reseller can match.

Look for the Rosen Authorized Dealer window decal at your local dealer. You may also search our Dealer Locator to find the dealers near you.

**WARNING...BUYER BEWARE**

Many unauthorized dealers attempt to remove factory serial number labels in order to avoid detection. This practice also voids our warranty and typically indicates the product is not from an Authorized Dealer and may be used, refurbished, counterfeit, stolen or otherwise compromised.
